July 17, 2018

Dear Parents, Teachers, & Students,

Summer is well on it's way now and with it busy schedules and little time to think about the coming months, but before you know it the time for back to school will be here. Starting September 2018 Beverly Methodist Church will be launching a new program called Beverly Discovery Zone. This program will provide your child with opportunities that will encourage academic and personal achievement in a variety of ways. We would like to invite you to an open house on **Thursday, August 16, 2018** from **6:30-8:30 PM** where you can look at the facility, learn more about the program, and ask any questions you might have. We are super excited about this program and look forward to seeing you soon.

This program is designed for homeschoolers K-12 to come together to Connect, Learn, & Grow. They will be given opportunities to connect with the larger homeschool community to aide in the development and completion of their academic goals. BDZ offers a hands on interactive learning approach that will challenge students creating an environment for critical thinking and problem solving. With this great network of friends and community Beverly Discovery Zone will help foster growth in every child individually and collectively as a larger entity.

Attached to this letter we have included a brochure that gives you more information about Beverly Discovery Zone and a school schedule for the upcoming 2018-2019 school year. BDZ is a program that can be used in a variety of ways. More specifically because the program is tailored to the needs of the student which allots for flexibility we can offer a 5 day program, 3 day program, 2 Day, or 1 day program for homeschoolers. Our school day will begin at 9AM and go to 3PM and is very cost effective. On a side note we have also chosen to keep our classroom sizes very low to encourage the greatest amount of learning with the least amount of distractions while giving students the best learning environment available.

We are also offering an enrichment program to assist with homework and to advance skills in several subject areas. There is a great deal of pressure on students today to pass standardized tests and because of that we are offering preparatory classes to help prepare students for the PARCC, HSPA, SAT, ACT, or any other test they may have to take. Overall we believe that Beverly Discovery Zone is the place to be be this fall and will bring in a multitude of blessings for each student enrolled. If you have any questions before the open house please feel free to email me anytime at [robby21383@gmail.com](mailto:robby21383@gmail.com).

Sincerely,

*Robyn Clark*

Director for Beverly Discovery Zone
